

Susan is from Agugu village in Gulu District. She received salvation in 2014 and has since continued to grow strong in the Lord. When Susan learned about OMA Foundation's training skills program through a pastor's wife, she felt God had answered her prayers.

Her dream was to learn to tailor and own a business that would sustain her livelihood and help her mother and siblings, who previously were abandoned by their father. Susan was successfully enrolled into the training program at OMA. She is now going through her tailoring training at OMA Foundation training centre. She says it brings her so much joy to learn what she is learning now, and she's hoping to finish and start up something of her own; she is being encouraged in the Word of God and equally equipped in life skills.

Susan enjoys accompanying her family to Church. In her free time, Susan loves reading the Word of God and singing worship songs in Luo with her family. Would you please pray for Susan to continually experience Godly wisdom and patience as she continues her class with us?

Will you become a sponsor today with OMA Foundation? Your financial support will allow us to educate Susan with tailoring skills, livelihood support, follow-up and mentorship.
