Growth

Our Work

Being able to take care of oneself and meet the needs of the members of the household is a burning desire for many unskilled / uneducated youths in our community today despite the growing uncertainty to find a job. OMA foundation believes, it is possible to achieve that. By providing avenues for learning/skills enhancement. We create opportunities for self-growth among the unskilled, uneducated youth in Northern Uganda. We do not only equip them with knowledge in a good number of Vocational skills, we also disciple, mentor, provide counselling, train on good agricultural practices, financial literacy, business development, among others. Moving into our new office space has created room for expansion and the introduction of new skill sets.

Our products

Our products are the songs we sing. They define our efforts, progress, and give us the confidence that anyone can be whoever they wish to be. The OMA Store was launched at the end of 2019. With our 2019 lot pioneering the production process. This was after they had acquired their skill in tailoring. We are so proud to be a part of their growth journey. We make items ranging from purses, bags, hats, jewelry, Art, clothes, toys, liquid soap etc. We believe that through this store we can employ and empower more of them. The Founders, Gloria and Chris Dima

There is so much we could say, and it would take more than just a 4 paged newsletter. But we are truly grateful for the love and support you our friends, family and partners have shown us. We could not have come this far if it were not for your generous financial support and prayers. We are calling out for more partners to come on board. There is still a lot that is needed to enable us to reach out to the growing needs in our community. ~ The Dimas.
